For the graduating classes of 2010-2015, 76% have graduated or are currently enrolled in a four year college, two year college or certificate program. This is a significant increase from our initial classes 2005-2009, where 49% graduated within six years. The most significant change in our alumni support program has been funding a full time position, Dean of College and Career Advising and part-time position, Dean of Alumni and partnering with Bottom Line. Bottom Line is currently grant funded by the Lewis Family Foundation to support students living in Dorchester, Mattapan, and Roxbury who state supported colleges and universities.

Our Academic Achievement Committee, chaired by board member Tony Helies, has widened their focus of support to include tracking certificate programs and two year colleges and to introduce younger students to various career paths. In the past two years, we have begun to offer AP Literature and Composition, and AP Biology to prepare our students for the rigor of college classes. Additionally we began to partner with Benjamin Franklin Institute of Technology (BFIT) to offer college level classes in psychology and communications; to date 17 students have earned college credit. Our junior and senior internship program has been strengthened to have a strong career focus. These additional supports prepare students for higher education and careers to succeed beyond Codman. We recognize those institutions which particularly support first-generation students of color with the Janus Award. Winners to date are: Holy Cross, Bottom Line and Ben Franklin Institute.

Alumni Matriculation and Graduation Rates (224 graduates)

Class of 2010-2015
- Total alumni: 139
- Alumni currently enrolled in program or have graduated within six years: 106 (76%)
